

SHREYA PATOLE

Data Analyst

Mumbai, Maharashtra, India | 8767821717 | shreyapatole4@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in Python, SQL, and Power BI for data cleaning, exploratory data analysis (EDA), and dashboard development. Skilled at transforming raw, messy datasets into clear, actionable business insights through statistical analysis and data visualization. NSQF Level 5 Certified Machine Learning Engineer with practical exposure to the complete data analytics and machine learning lifecycle. Strong communicator with a collaborative, problem-solving approach to data-driven decision-making.

TECHNICAL SKILLS

Data Analysis & Programming: Python (NumPy, Pandas, Scikit-learn), SQL, Exploratory Data Analysis (EDA), Statistical Analysis

Data Visualization & Reporting: Power BI, Matplotlib, Seaborn, Microsoft Excel

Machine Learning: Logistic Regression, Linear Regression, Random Forest, XGBoost, LLM, NLTK

Tools & Version Control: Microsoft Excel, Microsoft Word, Git, GitHub

Core Strengths: Communication, Teamwork & Collaboration, Decision-Making, Work Ethic & Professionalism

PROJECTS

Pizza Sales Analysis | SQL, Power BI

- Cleaned and analyzed pizza sales data using SQL to extract key performance indicators (KPIs) for business reporting.
- Identified sales trends, peak order times, and best-selling products through structured SQL queries.
- Designed interactive Power BI dashboards to visualize revenue, category-wise, and size-wise performance.
- Delivered actionable insights that supported data-driven business decisions and sales optimization.

River Flood Prediction using Machine Learning | Python, Pandas, Scikit-learn, Matplotlib, Seaborn, XGBoost

- Merged and cleaned historical Excel datasets from four rivers using Pandas to build an analysis-ready dataset.
- Performed Exploratory Data Analysis (EDA) to analyze discharge, runoff trends, and flood patterns.
- Built and compared Logistic Regression, Random Forest, and XGBoost models for flood prediction.
- Visualized flood severity and feature correlations to identify rivers with higher flood frequency.

CERTIFICATIONS

Certified Machine Learning Engineer (NSQF Level 5)

- Completed a 630-hour, government-aligned, industry-oriented training program.
- Covered the complete machine learning lifecycle: data preparation, feature engineering, model development, testing, and deployment support.
- Gained hands-on experience with Python, ML libraries, and data analysis tools through real-world on-the-job training and professional skills development.

EDUCATION

Bachelor of Science in Information Technology

Ramanand Arya DAV (Autonomous) College, Mumbai, Maharashtra, India

06/2023 – 04/2026

CGPA : 8.50

LANGUAGES

English, Marathi, Hindi
